

# Energy Consultancy Services

Lot 10 - Construction Consultancy Services

Reference: SBS/17/NH/PZR/9256

## Potential saving opportunities 5%

### When does the Framework run?

01 April 2018 until 31 March 2022

### Who can take advantage?

NHS and Public Sector organisations within the UK

### What does it cover?

The provision of Consultancy Services via an OJEU compliant route to market for Estates, Facilities and Capital teams encompassing a wide range of specialisms and utilising both SMEs and national providers.

The Energy and Efficiency services comprise the provision of services and products for energy efficiency. These could include (but not limited to):

- Undertaking energy audits and surveys;
- Analysis of Participating Authority's current energy usage;
- Identification of energy wastage and solutions to improve energy use;
- Investigation, feasibility studies, analysis, design, management and verification of energy use and potential savings;
- The provision of cost effective energy reduction advice and solutions;
- The provision of cost effective carbon footprint reduction advice and solutions;
- The provision of cost effective emissions reduction advice and solutions;
- Savings verification once an energy/carbon footprint/emissions reduction solution has been implemented;
- Helping the Participating Authority to achieve ISO 50001 Energy Management Systems certification;
- Design, finance, supply and installation of energy storage and/or energy efficiency systems and solutions;
- Design and project management of energy efficient systems;
- Comprehensive and full service energy efficiency solutions that provide guaranteed savings with active control and monitoring.
- Advising on current energy legislation and compliance with law and/or aiding the Participating Authority to meet environmental targets

### Benefits of using this Agreement

#### • CASH SAVINGS

A range of pricing options and discount structures are available such as prompt settlements and volume discounts.

Alongside this, the delivery of innovation and industry standard cost savings are guaranteed through the use of Level 2 BIM technology.

#### • SUPPLIER MIX

A wide range of suppliers to suit all requirements: from national providers to deliver large-scale multidisciplinary projects, to regional SMEs stripping out cost and improving communication.

#### • CHOICE OF PROCUREMENT ROUTE

Direct Award and Mini Competition options to deliver the most economically advantageous outcome.

#### • EXPANDED SERVICE OPTIONS

A range of additional ad-hoc consultancy options available via the Ancillary Services provision option.

#### • CONTRACT FLEXIBILITY

The ability to utilise a number of model contracts, enabling users to mix and match their requirements and tailor individual requirements.
