

MySBSPay

A free app that lets NHS employees access their pay information in a flexible and secure way

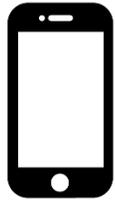

Shared vision. Better together

NHS

Shared Business Services

An App for Everything Pay Related

Over **100,000** NHS employees enjoy the features and benefits of our free Payroll App, MySBSPay – consistency rated over **4 stars** on both the [Apple App Store](#) and through [Google Play](#)

A Flexible Way for NHS Employees to Access Their Pay Information

MySBSPay is both accessible and flexible, enabling NHS employees to view, interrogate and download their payslips quickly and easily on the go, via a secure biometric log-on. Additionally, they can see at a glance when they will be paid next with a countdown to their payday as well as being able to compare their breakdowns on current payslips and P60s with previous ones.

The Benefits MySBSPay Delivers to NHS Organisations

MySBSPay is a free extension of our payroll service. It presents a more convenient, contemporary and user friendly way for NHS employees to access their pay information, minimising the need for pay-related queries and paper payslips. This contributes to increased NHS workforce efficiencies and aligns with both the NHS Long Term, and NHS People plans

The app is available for Apple and Android devices:

“

Previously I would wait for my wage slip and, if I had a question about my pay, I'd then need to call the payroll department. Having the App means that many NHS employees like me can now save lots of time by having everything there on our mobile phone. I also use the App to save money when buying birthday and leaving gifts for colleagues. And I've also used it to buy gift cards, cinema vouchers and restaurant deals.

”

Key Features and Benefits

At a time of unprecedented NHS workforce challenges, MySBSPay presents a more convenient, contemporary and user friendly way for NHS employees to access their pay information, minimising the need for pay-related queries and paper payslips.

User Design and Experience

Our pay app makes employees' lives easier which results in happier and more productive staff. This is reflected in design and user experience.

Biometric Log-on

Touch/face ID and fingerprint login ensures users can access their pay information securely and quickly.

Download Payslips & P60s

Users are able to view and download current and previous payslips and P60s quickly, as well as use the comprehensive FAQ section to answer pay queries.

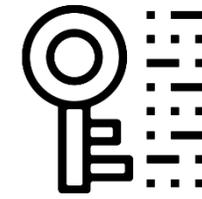

Exclusive Discounts

NHS employees can enjoy hundreds of exclusive high street and online discounts from well-known brands and organisations.

Rate the App/User Satisfaction Survey

Our app is consistency rated above **4 stars** in both the [Apple App Store](#) and through [Google Play](#) and that is partly because users can leave feedback easily using the Customer Satisfaction Survey which is considered the most effective form of user feedback.

New Device Log-on Alert

Users will be notified if there is a log-on attempt on another device, with this additional security layer.

Why NHS SBS Employment Services

Our solutions are designed specifically for the NHS and its employees, adding value in the areas which really matter – enabling the NHS to recruit, retain and support the very best employees to provide outstanding levels of frontline patient service whilst driving down costs and streamlining processes.

Why NHS Shared Business Services

Set up by the Department of Health and Social Care as the national provider of back office service, NHS Shared Business Services delivers leading-edge finance and accounting, procurement and employment services solutions to the rest of the NHS family. We work with 100% of commissioners and around 40% of providers, managing billions of pounds of NHS money, processing millions of transactions, and paying hundreds of thousands of NHS employees. This scale and scope means we have unparalleled specialist expertise and can deliver a minimum 20% cost savings compared with in-house service management.

We invest continually in corporate services on behalf of our clients to provide them with faster and more accurate ways of working, enabling their organisations to save time and money, so they can focus on the delivery of world-class patient care.
